**PETITION FOR PROPOSED ORDINANCE TO PROHIBIT HIGH
IMPACT DATA CENTERS IN THE CITY OF EDGERTON TO PREVENT
INDUSTRIAL NUISANCES, PROTECT THE PROPERTY OF ITS
RESIDENTS, AND PRESERVE MUNICIPAL RESOURCE CAPACITY.**

High Impact Data Centers present substantial risks to the public health, welfare, and peace of the residents of Edgerton, Kansas, and threaten the potential and capacity of local and regional infrastructure, including utilities. These facilities release massive amounts of heat and noise into the surrounding area, disrupting the local environment and affecting nearby residents and businesses. These facilities require extreme electrical loads that can stress local and regional power grids, require massive power infrastructure expansion, impose substantial load on local and regional utilities, and compete directly with the essential needs of residents and other community uses, potentially harming future city development and population growth.

We, the undersigned electors of the City of Edgerton, Kansas, hereby submit this Petition for a proposed ordinance pursuant to K.S.A. § 12-3013 and respectfully request that the governing body of the City of Edgerton pass the following ordinance without alteration or submit the same to a vote of the electors.

ORDINANCE NO. _____

**AN ORDINANCE OF THE CITY OF EDGERTON, KANSAS PROHIBITING THE
INSTALLATION AND OPERATION OF HIGH IMPACT DATA CENTERS TO PREVENT
INDUSTRIAL NUISANCES, PROTECT THE PROPERTY OF ITS RESIDENTS, AND
PRESERVE MUNICIPAL RESOURCE CAPACITY**

WHEREAS, High Impact Data Centers represent a rapidly evolving land use that has only recently begun to be proposed in jurisdictions across the United States, and that such facilities are largely unstudied in these areas and generate large negative environmental and potential health impacts, including industrial-scale land and regional residential environment disruption;

WHEREAS, emerging forms of High Impact Data Center development involve significant electrical and water consumption depending on facility design and cooling technologies with high demand on regional infrastructures that have not been adequately evaluated or addressed;

WHEREAS, High Impact Data Centers require extraordinary amounts of electrical power, water for cooling, and generate significant noise and heat by design, straining municipal utilities, impacting quality of life, imposing significant industrial nuisance, and causing adverse effects on public welfare;

WHEREAS, High Impact Data Centers are typically designed with some form of scalability, implicating unknown and increasing amounts of water and energy usage;

WHEREAS, the extreme electrical loads required by High Impact Data Centers necessitate the construction of novel high-voltage transmission lines, electrical substations, and other energy infrastructure development, likely necessitating involuntary property condemnation and taking of private land via utility easements;

WHEREAS, the continuous operation of High Impact Data Centers requires massive

industrial cooling arrays that generate severe and unrelenting noise pollution and localized thermal exhaust, creating an industrial nuisance that degrades the peace of surrounding public and private property;

WHEREAS, the Governing Body finds that a facility requiring a peak electrical load exceeding ten (10) megawatts or a daily water draw exceeding one hundred thousand (100,000) gallons constitutes the threshold at which a single use necessitates disruptive regional infrastructure expansion and requires industrial equipment and facilities that generate severe noise pollution.

NOW, THEREFORE, BE IT ORDAINED BY THE GOVERNING BODY OF THE CITY OF EDGERTON, KANSAS:

SECTION 1. The purpose of this Ordinance is to protect the public health, safety, peace, and welfare of the residents of Edgerton, Kansas, and to safeguard the stability and capacity of local and regional infrastructure and the peace and welfare of city residents and businesses, from the substantial risks posed by High Impact Data Centers. The Governing Body finds and declares as follows:

(a) **General Welfare Protection.** Protecting citizens from the threat of eminent domain and utility easements, preserving utility capacity for diverse municipal growth, and preventing industrial noise nuisances are fundamental exercises of the City's constitutional and statutory police powers to protect the public health, safety, and general welfare.

(b) **Public Infrastructure Preservation as a Core Duty.** The Governing Body finds that the preservation of municipal utility capacity—specifically the city's electrical distribution grid and public water supply for future growth and development—is essential to the public health, safety, and general welfare of the residents of Edgerton, Kansas.

(c) **Unexplored City Power Distribution.** The Governing Body finds that the novel and unprecedented municipal energy agreements required to service High Impact Data Centers present significant, unquantifiable risks to the stability of the local energy grid and the general welfare of City residents. Furthermore, the extraordinary electrical load demanded by such facilities necessitates massive and disruptive regional infrastructure expansion—specifically the construction of high-voltage transmission corridors, the involuntary condemnation of private property via utility easements, and the physical displacement of residents from their homes.

(d) **Inadequacy of Existing Regulatory Frameworks.** The rapid, unprecedented emergence of these high-impact, infrastructure-depleting facilities represents a novel depletion of municipal resources that cannot be managed through standard administrative oversight.

(e) **Reasonable Exercise of Police Power.** Therefore, a total prohibition on High Impact Data Centers is a necessary, reasonable, and narrowly tailored exercise of the City's inherent police power to protect the City's infrastructure and future growth, preserve the water and energy municipal rights of citizens, and protect the lives, safety, and quality of life of the citizens of Edgerton.

SECTION 2. For the purposes of this Ordinance, the following term shall have the meaning indicated:

“High Impact Data Center” means a principal use consisting of one or more buildings, structures, or facilities whose primary purpose is the housing, operation, and maintenance of computer servers, data storage devices, networking equipment, and associated infrastructure (including but not limited to cooling systems, backup power generators, substations, and high-capacity electrical and water systems) for the bulk processing, storage, or transmission of electronic data, that requires a peak electrical load exceeding ten (10) megawatts, or a daily water draw exceeding one hundred thousand (100,000) gallons. This term includes server farms, colocation facilities, AI training facilities, cryptocurrency mining operations, and similar high-density computing facilities. This definition does **not** include accessory data processing equipment that is incidental and subordinate to the primary use of a building (e.g., ordinary office servers, school computer labs, or manufacturing process controls).

SECTION 3. No person, firm, corporation, or other entity shall construct, install, operate, maintain, or cause to be constructed, installed, operated, or maintained, any High Impact Data Center.

SECTION 4. Any violation of these High Impact Data Center regulations shall be subject to the same enforcement requirements, including the civil and criminal penalties provided for in the City of Edgerton City Code, or applicable City of Edgerton, State of Kansas, or federal law for violation of an ordinance.

SECTION 5. If any section, subsection, sentence, clause, phrase, or portion of this Ordinance is for any reason held invalid or unconstitutional by any court of competent jurisdiction, such portion shall be deemed a separate, distinct, and independent provision, and such holding shall not affect the validity of the remaining portions hereof. Similarly, if any exemption, variance, or procedural provision is found invalid, it is the express intent that the core prohibitions shall remain in effect to the maximum extent permitted by law.

SECTION 6. Where the requirements of this Ordinance impose a different restriction or requirement than imposed by other sections of the City of Edgerton City Code, or other applicable rules or regulations, the requirements of this Ordinance shall prevail.

SECTION 7. This Ordinance shall take effect and be in force upon publication as required by K.S.A. § 12-3007, or upon approval by the electors pursuant to K.S.A. § 12-3013, as applicable by law.

WHEREFORE, as of the ____ day of _____, 2026, we, the qualified electors of the City of Edgerton, Kansas, hereby submit this Petition for a proposed ordinance pursuant to K.S.A. § 12-3013 and respectfully request that the governing body of the City of Edgerton either pass the above ordinance without alteration or submit the same to a vote of the electors.

We, the undersigned qualified electors of the City of Edgerton, Kansas, hereby petition the governing body of the City of Edgerton, pursuant to K.S.A. § 12-3013, to either pass the above ordinance prohibiting High Impact Data Centers in The City of Edgerton, Kansas to prevent industrial nuisances, protect the property of its residents, and preserve municipal resource capacity or to submit the same to a vote of the electors. BALLOT QUESTION: "Shall the following be adopted? An ordinance of the City of Edgerton, Kansas prohibiting the installation and operation of High Impact Data Centers to prevent industrial nuisances, protect the property of its residents, and preserve municipal resource capacity."

"I have personally signed this petition. I am a registered elector of the State of Kansas and of the City of Edgerton and my residence address is correctly written after my name."

My Commission Expires: 06/20/2030

We, the undersigned qualified electors of the City of Edgerton, Kansas, hereby petition the governing body of the City of Edgerton, pursuant to K.S.A. § 12-3013, to either pass the above ordinance prohibiting High Impact Data Centers in The City of Edgerton, Kansas to prevent industrial nuisances, protect the property of its residents, and preserve municipal resource capacity or to submit the same to a vote of the electors. BALLOT QUESTION: "Shall the following be adopted? An ordinance of the City of Edgerton, Kansas prohibiting the installation and operation of High Impact Data Centers to prevent industrial nuisances, protect the property of its residents, and preserve municipal resource capacity."

"I have personally signed this petition. I am a registered elector of the State of Kansas and of the City of Edgerton and my residence address is correctly written after my name."

My Commission Expires:

We, the undersigned qualified electors of the City of Edgerton, Kansas, hereby petition the governing body of the City of Edgerton, pursuant to K.S.A. § 12-3013, to either pass the above ordinance prohibiting High Impact Data Centers in The City of Edgerton, Kansas to prevent industrial nuisances, protect the property of its residents, and preserve municipal resource capacity or to submit the same to a vote of the electors. BALLOT QUESTION: "Shall the following be adopted? An ordinance of the City of Edgerton, Kansas prohibiting the installation and operation of High Impact Data Centers to prevent industrial nuisances, protect the property of its residents, and preserve municipal resource capacity."

"I have personally signed this petition. I am a registered elector of the State of Kansas and of the City of Edgerton and my residence address is correctly written after my name."
